

# Restart<sup>®</sup> Balancer

A daily feed supplement designed to balance the diet and meet daily requirements.

Restart<sup>®</sup> Balancer is a daily supplement designed to correct nutritional imbalances in hay or grass and support the overall health and wellbeing of horses. Restart Balancer provides a supplemental source of minerals, amino acids, and vitamins to support a strong immune system. Give horses all the advantages that superior nutrition and a balanced diet can provide in the daily ration without additional calories.

**KEY FUNCTIONAL COMPONENTS:** Vitamins, Minerals, Amino Acids

## FEATURES & BENEFITS

- Balanced levels of vitamins to support immune system function, allergy health, skin & coat condition, and bone density
- Provides minerals that are important for bone health
- Contains amino acids that are essential for muscle maintenance in horses
- Helps ensure horses receive a well-balanced diet to support health and performance

## WHEN TO USE

- As an energy source for all classes of horses
- Horses fed less than recommended amounts of complete feeds
- When additional demands are placed on the horse such as lactating mares, breeding stallions, competition training, illness, injury, or during recovery
- Supplements essential nutrients that may be missing such as vitamin deficiency
- Horses on hay or pasture-only diets including minis/donkeys

## DIRECTIONS FOR USE

For individual feeding, feed 1 to 2 ounces of RESTART BALANCER per head per day. RESTART BALANCER can be blended into complete feeds at the rate of 12.5 pounds per ton. Suggested usage rates are based on a 1000 lb horse, adjust product usage according to body weight of horse.
