

Restart® TriFlex

Helps improve joint health, strengthen hooves, promote a health coat and support immunity.

Restart® TriFlex contains components your horse needs to help improve joint health, strengthen hooves, boost immunity and promote a healthy coat. Restart TriFlex ensures that your horse has the basic foundation for overall health and wellness. Whether your horse is a competitive horse, travels frequently, or is primarily a pleasure horse, ensures it gets all of the essential components daily with Restart TriFlex.

KEY FUNCTIONAL COMPONENTS: Omega's 3 & 6, Glucosamine, Chondroitin, and Hyaluronic Acid

FEATURES & BENEFITS

- All-in-one product that delivers components needed to maintain and support overall wellness in the four main areas: joint, hoof, coat, and to support immunity
- Provide daily for optimum results for all types of horses of any age
- Highly palatable pellet delivers Hyaluronic Acid, Glucosamine and Chondroitin to help lubricate and rebuild cartilage

WHEN TO USE

- To help promote cartilage growth and well-lubricated joints, for preventative joint health in young horses, and for joint damage prevention
- To strengthen and rebuild cracked hooves
- To improve coat shine
- When horses require additional immune support

DIRECTIONS FOR USE

Top dress 4 oz of RESTART® TRIFLEX per day for the initial 3 to 4 weeks of providing product. After the initial feeding period, feed 2 oz per day.

Suggested usage rates are based on a 1000 lb horse, adjust product usage according to body weight of horse.
